2026

OUR MISSION

We design and build bespoke interiors meant to outlive the present. From handcrafted kitchens to complete living spaces.

OUR APPROACH TO DESIGN IS FUTURE-DRIVEN

Designing for short-lived trends or for the easily disposable is simply not for us. We are highly ambitious and always focused on thinking of the bigger picture. We care more about building spaces that will be just as relevant and valued three and four decades from now. Spaces that do not only survive, but are worth the test of time.

FORMAT — HOSPITALITY

A minimalist interior scene. On the left, a large, light-colored sofa with a textured, rounded backrest is partially visible. In the foreground, a stack of three books is arranged on a light-colored surface. The top book is titled 'SOFT MINIMAL' and 'FORMAT — OUR PROCESS'. A small, light-colored bowl with a lid sits atop the stack. The background is a plain, light-colored wall.

We work in close collaboration with our clients,
we co-create. All our projects are bespoke yet follow
the same step-by-step process.

STEP 1
RESEARCH AND BRAINSTORMING

Good design starts with good research. In this initial phase, we get to know you, your individual needs, your lifestyle, your family structure, and your interior design dreams. We discuss what you are looking for regarding arrangement, layout, and aesthetics. After assessing these factors, we begin to draft initial sketches and develop a bespoke project proposal based on your insights and budget.

FORMAT—OUR PROCESS

STEP 2
DESIGN

In this phase, all those initial ideas begin to take shape. We will present you a compendium including mood boards, drawings, and insights about our thought process. After our quotation is approved, we proceed with developing technical drawings of the design.

STEP 3
TECHNICAL DRAWING

We will finalize the design by making the official technical drawings, who are leading in the production process. Before starting this, we meticulously measure your living space to ensure every new element will fit perfectly with the rest of the environment.

FORMAT — OUR PROCESS

STEP 4
PRODUCTION

This part of the process is where we give physical form to our ideas. Our production is led by meticulous craftspeople who pour all their knowledge and care into everything we build.

STEP 5
INSTALLATION

We only install pieces that you have previously approved of. Our installation process is streamlined and time-effective, allowing you to enjoy your new space soon after we finish installing all elements.

Bring your ideas, needs, and interior design desires to our studio. We bring you on a creative journey to explore possibilities and materials. Let's take your design dreams to the next level.
